Scientific Programme Programme Scientifique

Mid Winter Meeting 2018 – NATO HQ (Belgium)

Réunion d' hiver 2018 – HQ OTAN (Belgique)

February 07th -10th

SCIENTIFIC PROGRAM CIOMR MWM 2018

THEME

**Military and Civil Cooperation in Support of Natural Disasters,
Emerging and/or Delared Crises and Wars**

WEDNESDAY 07 FEB

CIOMR WORKSHOP (09.00 – 17.00) All Medical Personnel (Queen Astrid Military Hospital, Neder-over-Heembeek, Belgium) (Salle Dupont)

Practical Skills Workshops Moderated by the Training Team of the 4626 Squadron RauxAF.

Executive Officer: Wg Cdr Graham Banks

Course Administrator *Col. Walter Henny (NL)*

WORKSHOP: «Keep Them Hands On»

Subjects

- Head Injury Assessment
- IO Fluid Resuscitation
- SAM Pelvic Binder and Femoral Kendrick Traction Device
- Hemorrhage Control
- Pediatric Basic Life Support
- Positive Pressure Chest Drains

Schedule

09.00	Registration
09.15 – 12.00	Round Robin
12.00 – 13.00	Lunch
13.00 – 15.45	Round Robin
15.45	Summary
16.00	End

THURSDAY 08 FEB

CIOMR EXECUTIVE COUNCIL Part I (15.00 – 17.00) - All CIOMR + invited Guests
(Service dress jacket and tie)

15.00 – 17.00 Excecutive Council Meeting (Luns-Theatre)

17.15 Busses leave from NATO HQ for Reception

OFFICIAL RECEPTION at Royal Museum of armed Forces (18.00 – 19.30)

(Service dress jacket and tie)

70th CIOR ~ CIOMR Anniversary Reception

CIOMR Meet & Greet DINNER (2000 – 2200) - All CIOMR + invited Guests **tbd!**
(Service dress jacket and tie)

FRIDAY 09 FEB

0830 Busses leave from Holiday Inn Airport Hotel for NATO HQ

SCIENTIFIC SESSION I (09.30 – 12.30) - All CIOMR + Guests (Luns – Theatre)

(Service dress or jacket and tie)

09.30 **Welcome & Introduction to Scientific Session I**

Major (MD) Nils Drews (GER) Chairman, Scientific Committee

09.40 **Uncovering Medical Fitness Limitations on Reserve Members
Required for Short-Notice Deployments**

Commander (Dr.) Robert Briggs, MD, Royal Canadian Navy

10.10 **Support to medical Teaching in India. A personal narrative**

Lt Col Helen McKay

10.40 **Occupational Burnout in Human-Centered Workplaces**

Captain (Dr.) Athanasios Stamatelopoulos, MD, MSc, PhD, DSc, FCCP

11.10 **Break**

11.30 **Medical Planning and logistic support to entry Ops into Iraq 2003**

A personal perspective and experience of medical (operational) planning.

Col Christian Townend

12.00 **Military Humanitarian Dental Care**

Dr. Philippe Gateau, PhD, Colonel (R), French Joint Health Services

12.30 (optional time / transport)

The Following Presentation has been moved to 08 Feb:

As A Military Health Care Professional, Why Do I need to Know about Female Genital Mutilation?

Major (Dr.) Richard Fawcett, Clinical Director, 208 Field Hospital

LUNCH BREAK (12.45 – 13.45)

FRIDAY 09 FEB

SCIENTIFIC SESSION II (14.00 – 15.30) - All CIOMR + Guests

- 14.00 **Welcome & Introduction to Scientific Session II**
Major (MD) Nils Drews (GER) Chairman, Scientific Committee
- 14.05 **It's never been about trauma**
A presentation about infectious diseases and the military throughout the ages; a personal perspective.
Flt Lt Helen Trudgeon
- 14.30 **Citizen Aid, You can save lives!**
Public Immediate Actions: A simple and logical approach to protect yourself and others. The United Kingdom's approach to informing its citizens on how to respond to terrorism, emergencies and other serious situations. Developed through military and civilian collaboration.
Lt Col Simon Davies
- 15.00 **Medical Emergency Response Team**
Taking the ED to the patient; Operation HERRICK. The transition from Forward AE to Immediate Response Team standards and on to the planned, effective delivery of life-saving care at the point of injury or wounding.
Wg Cdr Graham Banks
- 15.25 **Closing Remarks**
Major (MD) Nils Drews (GER) Chairman, Scientific Committee

COMITTEE & BOARD MEETINGS (15.30 – 17.00) - All CIOMR + Guests

(Luns – Theatre + add. Rooms tbd.)

17.15 Busses leave from NATO HQ to HolidayInn Airport Hotel

19.00 Bus Departure from Hotels to NATO HQ

(please look for additional announcements in the Hotels)

CLOSING DINNER at NATO HQ (2000 – 2300)

(Mess dress)

SATURDAY 10 FEB

0830 Busses leave from HolidayInn Airport Hotel for NATO HQ

CIOMR EXECUTIVE COUNCIL Part II (09.30 – 11.00) – All CIOMR

(Service dress or civilian jacket and tie)

- IntPres / SG reports
- Committee reports
- Any Other Business
- (see additional Agenda ExCouncil-Meeting)

CLOSING GENERAL COUNCIL (11.30 – 12.00) – All CIOR/CIOMR

(Service dress or civilian jacket and tie)

CIOMR Achievements MWM by CIOMR Secretary General

CIOR Achievements MWM by CIOR Secretary General

Closing Remarks by CIOMR President

Closing Remarks by CIOR President

LUNCH (12.15 – 14.00)

1400 Busses leave from NATO HQ to HolidayInn Airport Hotel

Conference Agenda Presentations

"MILITARY HUMANITARIAN DENTAL CARE"

French Experience

Dr. Philippe Gateau, PhD

Colonel (R), French Joint Health Services

- *During several military foreign missions as a French Reservist I carried out humanitarian tasks as a dentist. My first mission was carried out in Bosnia and Herzegovina in 2004. I worked in the Mostar role 2 medical treatment facility that was sometimes linked to the French civilian-military leadership called CIMIC. Under those auspices I looked after children in small villages around Mostar. Medical care was provided in schools. In Mostar, there was a Moroccan contingent with a dentist who was working with me. We had only one ambulance and the care was done on the stretcher in the classroom. We had a mobile dental unit named "trans-care unit". That consisted of a turbine, a micro motor, a dental ultrasonic scaler, a suction and a build-in compressor. We were doing only one-time dental care and extractions*
- *Two years later I returned to Mostar. It was in the old Serbian Republic of Bosnia. I was greeted in a Red Cross center at Bileća city. The dental care provided was the same compared to two years ago with a "trans-care unit".*
- *A few years later, I was sent to Africa on another military mission in the N'Djamena French Air Force base (2013). Every morning I went to the entrance of the base and my dental nurse, who spoke Arabic Chadian, selected 15 people among a large number of patients who were waiting. Those patients said, "It hurts, remove!". So every morning I extracted around 25 teeth. In N'Djamena I worked in very good conditions. The French army had several shelters with Dental unit, digital X-ray and autoclave. There is however one in N'Djamena and another in Gao.*

Civilian-military missions provide humanitarian care to people who do not have access to it. It has been a very enriching experience for me to carry out this mission.

Dr Philippe Gateau, PhD, Colonel (R)

Chirurgien-Dentiste en Chef

Professor at Paris University

National Order of Merit (Knight)

As A Military Health Care Professional Why Do I Need to Know about Female Genital Mutilation?

Major (Dr) Richard Fawcett

Clinical Director, 208 Field Hospital

FGM is a procedure that involves the cutting or removal of any part of the female genital organs for cultural or any other non-therapeutic reasons. FGM has been reported to occur all over the world with over 2 million females under going the procedure every year. In 1997, the WHO and the UNFPA jointly condemned FGM and its practice supporting other international laws and policies describing it as a human rights violation, torture and an extreme form of violence and discrimination against females. Like many other countries, FGM is illegal within the UK, and since October 2015 the mis-management of these patients can result in the loss of a health care professional's registration. Whilst on deployment medical personnel might come into contact with cases of FGM or be asked to assist local surgical teams with performing FGM. It is essential that everyone knows their professional and legal duties (and possible repercussions) when facing these situations.
